

I'm not robot!

(3) Allow the light source to cool for approximately five minutes and then place the dust cover over the spectrofluorometer. 2.3 [Spectra Manager] [Spectra Manager] is a menu application that is used to start spectra measurement and analysis and environment setting using the spectrofluorometer, and selecting, for starting up and shutting down the spectrofluorometer, as well as for setting the communication port. Fig. 2.2 [Spectra Manager] window Fig. 2.2 shows the standard [Measurement] and [Analysis] program menu. When additional programs are installed, they are added to this menu. The [Analysis] menu appears on the left and the [Measurement] menu appears on the right. To start a program, double-click on the program in the menu. If the spectrofluorometer has not already been started, both the program and spectrofluorometer will start simultaneously. 2.3.1 [Spectra Manager] start-up procedures (1) At Windows start-up, the [Jasco]-[Spectra Manager] is activated. (See Fig. 2.3.) The [Spectra Manager] window, shown in Fig. 2.4, will appear.
